Business Aviation Works

October 19, 2010

Business aviation plays a vital role for citizens, companies and communities across the U.S. The industry is vital to the national economic interest, generating over a million jobs, providing a lifeline to communities with little or no airline service, helping thousands of businesses of all sizes to be more productive and efficient, and providing emergency and humanitarian services to people in need.

This video debuted at NBAA2010, held October 19 to 21, 2010, in Atlanta, GA.

Any person who attends an NBAA convention, conference, seminar or other program grants permission to NBAA, its employees and agents (collectively "NBAA") to record his or her visual/audio images, including, but not limited to, photographs, digital images, voices, sound or video recordings, audio clips, or accompanying written descriptions, and, without notifying such person, to use his or her name and such images for any purpose of NBAA, including advertisements for NBAA and its programs.
