

Erosion Control Implementation Plan (ECIP) Worksheet

Project No.: _____

County: _____

Type of Work: _____

Prime Contractor: _____

Contact Person: _____

Phone: _____

Erosion Control Technician (ECT) and Certification Number:

ESC Basics Trained Individual(s) and Company:

Contact of the subcontractor responsible for installation & maintenance of erosion/sediment controls:

Name: _____

Company: _____

Address: _____

Phone: _____

Description of intended schedule and sequence of major land disturbing and erosion/sediment control activities (include number of mobilizations if required by specification):

Include staging and maintenance, method for winter shutdown and removal of temporary measures (if required for the project). Describe any additional measures that are needed due to late season work.

Describe measures necessary to control erosion based on your schedule or sequence of operations. Explain how you plan to implement erosion control plan in stages. Indicate measures that must be in place before grading begins.

Based on your staging, are there areas where additional erosion control beyond that shown in the plans is anticipated? If so, provide information.

Other:

Describe dewatering methods and locations. What controls will be used at the outlet?

Provide information regarding location and protection of stockpiles.

Updates:

Update ECIP to address changes in the order of operations or staging, weather changes, or any other changes required to comply with permit requirements.

Update ECIP to address changes in the number of mobilizations.
