

See "Summary of Materials for Type 'A' Signs" and the Sign Type and Location Plan Sheets for data regarding specific sign assemblies.

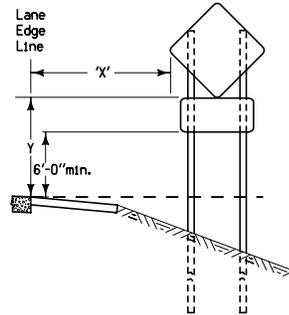

Final location of signs shall be at the discretion of the Engineer.

Use the Type 1 installation in any case except where:

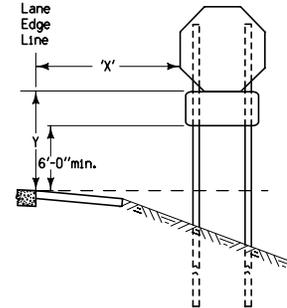

- (A) Otherwise specified in the plans.
- (B) Otherwise directed by the Engineer.
- (C) A Type 3 installation is required due to location in an island or gore area.

Type 3 Installation

Type 3 installation is intended to show the requirements for a Type 'A' sign when installed in an island or median (where traffic passes on both sides of the sign) as well as for locations where the Type 'A' sign is installed adjacent to a curbed roadway (sign may be located on either side of a roadway as specified in project plans).
