

GENERAL NOTES:

Provide required storage volumes by construct sediment trap to elevations and dimensions shown in the contract documents.

Remove accumulated sediment when level reached one-half the height of the wet storage.

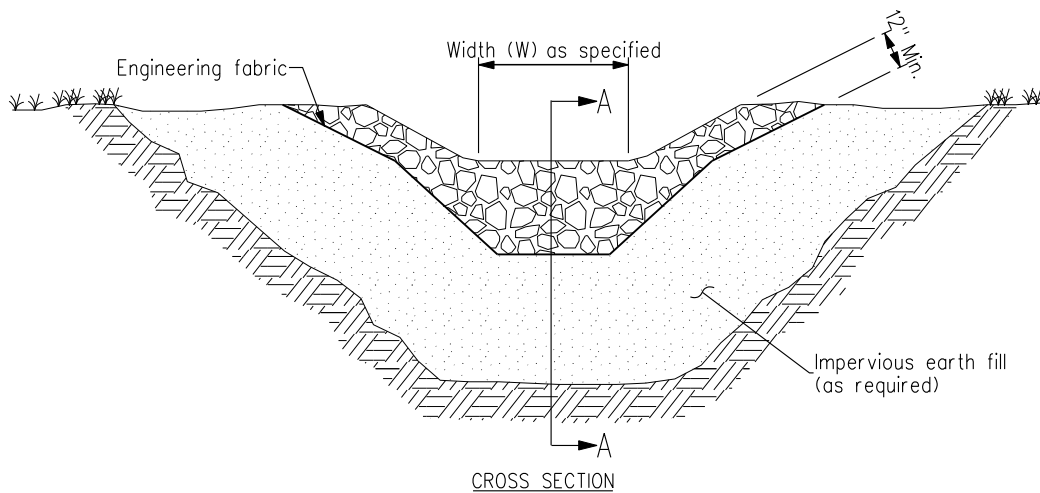

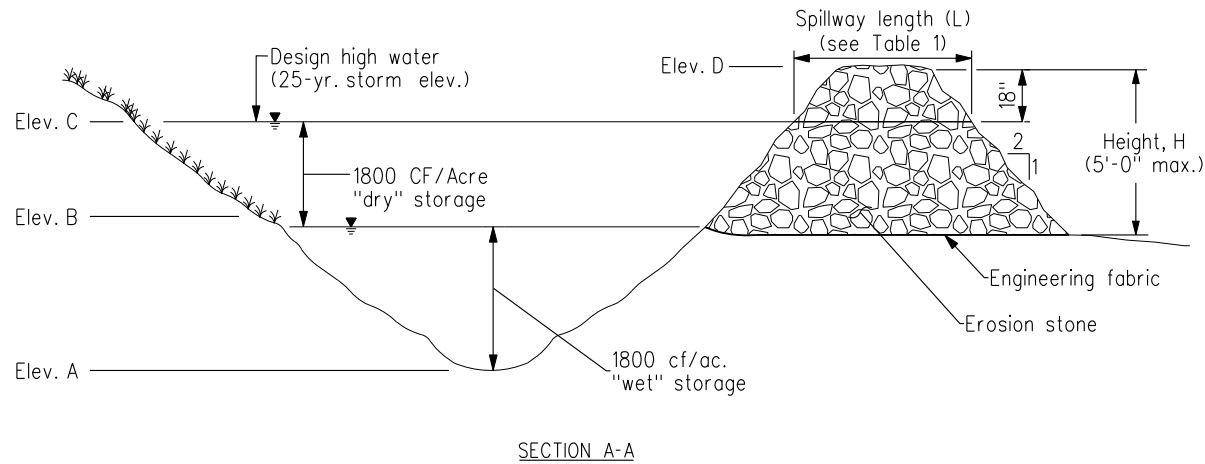

Table 1
(Spillway length)

H, (ft.)	L (ft.)
1.5	2.0
2.0	2.0
2.5	2.5
3.0	2.5
3.5	3.0
4.0	3.0
4.5	4.0
5.0	4.5
