

Doc Express Drawers, Document Types, and Naming Convention

For all multiple project contracts, include the three digit paran number “(ppp)” at the end of the file name if the document is project specific.

Unless specified differently in the “File Naming” column, the following shall apply:

nn = two digit sequential numbering (if a single digit, always use two digits in the file name (1=01, 2=02 etc.))

nnn = three digit sequential numbering (if a single or double digit, always use three digits in the file name (1=001, 2=002 etc.))

d = District number

bbb = Bid Order Number and is always 3 digits

mmm = first three letters of the month name

yy = two digit year

mm = two digit month (if a single digit, always use two digits in the file name (1=01, 2=02 etc.))

dd = two digit day (if a single digit, always use two digits in the file name (1=01, 2=02 etc.))

ppp = paran number in the project number and is always 3 digits

ss = two digit site number, when applicable on multi-site projects (if a single digit, always use two digits in the file name (1=01, 2=02 etc.))

contractor name = company name of the Prime or subcontractor

owner last name = last name of the owner of the property

name = last name of individual

xx = plan sheet number

x = shoulder, intermediate, surface as appropriate

z = design level

WE = Week Ending (this is the date on Saturday of the week)

Drawers that require signatures are noted in the drawer title box.
