MOTOR VEHICLE NEWSLETTER **Iowa DOT Central Programs Bureau** **July 2024**

Mid-year vehicle statistics posted on web

MVD has updated three key vehicle statistics with data through June 30, 2024. These reports and other annual reports are available at <https://iowadot.gov/mvd/factsandstats> and all of these reports have county-by-county data:

- Iowa has now issued more than 750,000 blackout plates and earned \$47.4 million since they were launched in 2019. In the past six months alone, the plates earned about \$5.9 million in revenue. There are almost 580,000 blackout plates still in use which represents about 12% of all registered vehicles in Iowa.
- Dealers in Iowa submitted about 87,000 transactions through the Electronic Registration & Title system in the first half of 2024. About 19% of all titles issued in Iowa during that time came from ERT-applications.
- There are almost 17,500 Electric and Plug-In Hybrid Electric Vehicles in Iowa as of June 30, 2024. The number is up by 15% since December 31, 2023. Iowa took in about \$786,000

from the EV/PHEV supplemental registration fee in the first six months of 2024.

Tips & Tricks

If you need to identify the previous title number on a transaction, this information still exists on the ARTS Title Snapshot (Reports > Title Reports > Title Snapshot). You can also see previous title numbers under Reports > Vehicle Reports > Vehicle Ownership History.
