

**SPECIAL PROVISIONS
FOR
GRANULAR SUBBASE**

**Franklin County
IMX-035-6(143)172--02-35**

**Effective Date
October 21, 2025**

THE STANDARD SPECIFICATIONS, SERIES 2023, ARE AMENDED BY THE FOLLOWING MODIFICATIONS AND ADDITIONS. THESE ARE SPECIAL PROVISIONS AND THEY SHALL PREVAIL OVER THOSE PUBLISHED IN THE STANDARD SPECIFICATIONS.

230344.01 DESCRIPTION.

The requirements for granular subbase from Section 2111 of the Standard Specifications are modified as follows.

230344.02 MATERIALS.

Use material meeting the following revised gradation:

Table SP-230344.02: Gradation

Std. Sieve Size	Percent Passing
1 1/2"	100
1/2"	40-80
No. 8	10-35
No. 200	2-8

230344.03 Construction.

Compact granular subbase with six passes of a self-propelled, vibratory steel roller per Article 2001.05, F of the Standard Specifications, unless fewer passes are directed by the Engineer based on Engineer's assessment/testing of material degradation, consolidation, and permeability.
